

# Welcome

We extend a warm welcome to:  
**Ordinary Members**

## **Mr Gregory Poi**

Gregory, a Malaysian, is a Lecturer at Singapore Polytechnic in the School of Chemical and Life Sciences. He teaches Environmental Studies, Industrial Biotechnology and Bioprocess Engineering. He is a graduate of the University of New South Wales in Sydney, Australia. He has a BSc in biochemistry and industrial microbiology (1983), a Graduate Diploma (1984) and a MSc in fermentation (1986). He worked for two years in Australia with MVRIC before coming to Singapore. He is active in R and D and consultancy in the bio-treatment of industrial wastewater and bio-remediation in Singapore and Indonesia. He has done training on SHE topics for several refineries and chemical plants.

We look forward to Gregory's participation at our activities and to his contributions to the development of SLP.

## **A Great Welcome to All.**
