

Welcome

We extend a warm welcome to:

Ordinary Members

Mr Tong Kam Fei

Kam Fei is the Manager (General) with Andes Appraisal Pte Ltd. He has a bachelor's degree in Civil Engineering and a Master's in Business Administration. He is registered with the Ministry of Manpower, the National Environmental Agency, IEMA(UK) and IRCA (UK).

In his job with Andes, he inspects and audits buildings and infrastructures for structural integrity, defects and legal and statutory compliance.

Before his present appointment, he spent 7 years in Geotechnical Engineering, Quality Assessment and Failure Analysis in the manufacturing and construction industries. Currently, he is involved in auditing of public housing facade integrity using a Thermographic technique both here in Singapore and in the Asia Pacific region.

Kam Fei, we hope to see you at our various activities. Welcome!

Corporate Members

Infineum has 70 years of industry experience and is a market leader in providing additive solutions for Passenger Car Motor Oil, Heavy Duty Diesel, Automatic Transmission Fluid, 2-cycle Engines, Fuels and Lubricant Oil Flow Improver.

Infineum, a joint venture company between ExxonMobil Chemical Company, The Shell Petroleum Company Ltd and Shell Oil Company, is a market leader in the development, manufacture and sales of additives for petroleum fuels and lubricants.

Infineum has its Corporate Centre in Milton Hill in the United Kingdom. It has three regional business and technology centres located in Milton Hill (UK), Linden (USA) and Singapore.

Infineum's **Asia Pacific** Business & Technology Centre is headquartered in Singapore, with offices in Australia, China, Japan and Korea. Infineum is also represented by officially appointed agents/distributors in a further seven countries throughout the region. A world-scale additives plant in Singapore acts as the principal manufacturing centre for the region.

Infineum has R&D facilities in Singapore and Tokyo, Japan. The company has also rapidly expanded its businesses in China. It has set up a representative office in Beijing which serves as its marketing arm for its auto-lube additives.

Infineum has a strong culture of health, safety and environment protection. The Singapore Plant has won the Ministry of Manpower's OSH Excellence Award for six consecutive years from 1998 to 2004.

The nominees of Infineum Singapore are Yeo Soo Hock, Health, Safety & Environment Manager and Teo Lek Hong, Plant Manager.
