

Editorial

Readers will note that we have changed the title of our newsletter to Update. Our Executive Committee decided on this change at its recent meeting because it wanted to make the publication more current ie. to report on events in a more timely manner and to publish it more frequently. This is the first issue in this new format. One obvious improvement for future issues is to be more prompt!

The President's Message will not appear with each issue. Instead, he will write when he has some news or messages that he feels are significant enough to be shared with our members eg. our corporate plan or about our Annual General Meeting.

Our first event in 2010 is a re-run of our successful course for HazOps for Leaders. It is to be held on January 27 and 28 at the Singapore Polytechnic Graduates Guild. The course leader is John Lockwood, an Honorary Fellow of SLP and a well-known consultant in Process Safety.

*To All our Members and Friends,
a Happy Safe and Successful Holiday Season and 2010.*
